Suggestions on how to sell UCD

A. Refill station

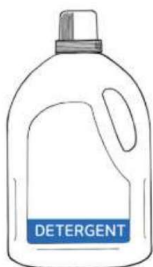

Building a system for easy subdivision such as 100ml/500ml/1000ml for quick sales

Refill containers brought by consumers can be filled as much as they want.

Refill station-only containers can be purchased. Provide a guide for diluting 5 to 90 times.

B. MANUFACTURING (Dilution) & SALES

The process of diluting UCD for commercialization

- ① Purified water into Mixertank according to the dilution rate.
- ② Pour UCD into Mixertank according to dilution rate.
- ③ Mixing and then move the diluted detergent into storage tank. (for 1 day~ 2days)
- ④ Filling detergent into bottles by filling machine.
- ⑤ Pack products into carton box.

KOSAPLUS Co., Ltd.

Valve Actuators

Scotch yoke, rack pinion, spur gear

<https://kosaplus.com>

SCOTCH YOKE (A series)

The SCOTCH YOKE product has a high TORQUE and a small inner diameter compared to the RACK & PINION product.

RACK PINION (R series)

RACK & PINION products are easily controlled by the positioner and can be multi-springed.

SPUR GEAR

With the torque from 8 Nm to 80 Nm, BALL VALVE can be opened and closed up to 50 A (2") and BUTTERFLY VALVE up to 125 A (3").

TM GEAR

With torque from 100 Nm to 1,200 Nm, BALL VALVE can be opened and closed up to 200 A (6") and BUTTERFLY VALVE can be opened and closed up to 400 A (10").

Herzion (Aribio Co., Ltd.)

Vibroacoustic Wellness

Low-frequency vibration stimulation for brain and body

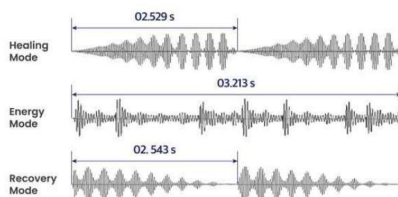

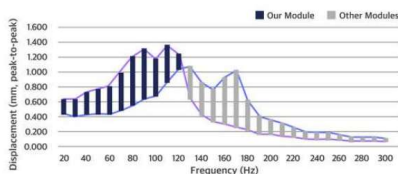

en.herzion.com

Safer for the Body · All-Brain Vibration

Unique Vibroacoustic Effect

Unlike conventional methods that rely on strong stimuli such as electricity, light, or noise, **Herzion delivers broad and deep vibrations gently through acoustic resonance.** Its safe, low-frequency vibroacoustic technology minimizes strain on the body, making it suitable for use even during work or daily activities.

Optimized Performance for Low-Frequency Vibration Stimulation

Herzion is engineered to deliver stable and precise vibrations in the low-frequency range of 20Hz to 120Hz, **providing optimal stimulation intensity and frequency response for brain care.**
