POLVEN

POLVEN is a combination of 'pole' and 'ven', derived from the word 'adventure'.
It represents an adventure with a pole. Enjoy every camping experience with
our durable and easy-to-use adjustable poles.

COMPANY OVERVIEW

Let's go on an adventure with POLVEN

POLVEN manufactures and sells adjustable poles with a convenient height adjustment method.

Unlike conventional methods that require repeatedly pressing buttons to adjust height, we have developed and implemented a unique 'No-Press' height adjustment method. This allows users to easily adjust the height simply by sliding the outer pipe up or down.

Moreover, we plan to develop a variety of camping products that incorporate this height adjustment feature beyond just poles. We will continue to expand our product line to enhance the camping experience and improve the lives of campers.

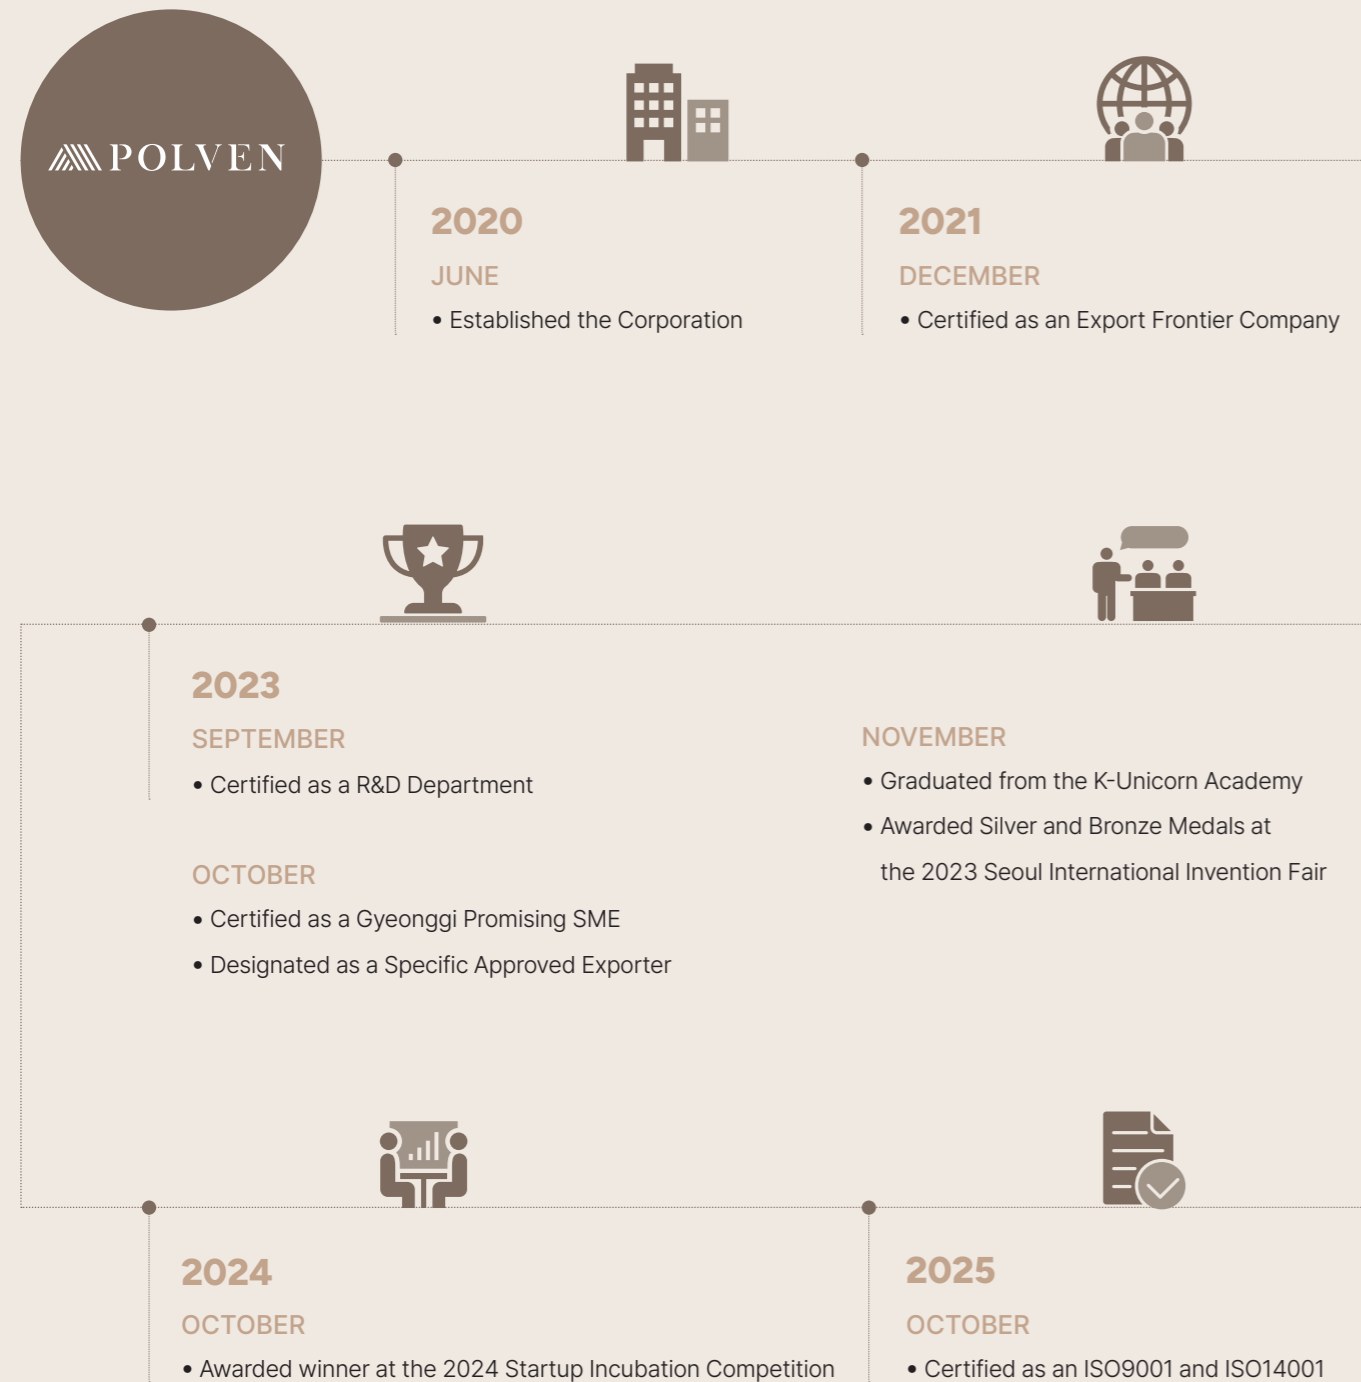

ABOUT US

CEO	Myunghyun Ryu
Date of Establishment	June 19, 2020
Address	32 Dongguk-ro, Ilsandong-gu, Goyang-si, Gyeonggi-do, Republic of Korea
Contact Information	TEL : +82-31-814-7979 FAX: +82-31-918-9002
Business Type / Industry	Manufacturing, Wholesale / Camping Equipment, Hangers and Wardrobes
Main Products	Tent / Tarp pole
Website	www.polven.co.kr

COMPANY HISTORY

Since its establishment, POLVEN specializes in developing poles with a convenient height adjustment method. Our pole's excellence has been acknowledged with awards at the 2023 Seoul International Invention Fair and the 2024 Startup Incubating Contest (Creativity Award). Also, we graduated from the K-Unicorn Academy and are currently incubated at Dongguk University's BMC Startup Incubation Center, which have supported our growth across all areas of business.

CERTIFICATION STATUS

Based on the originality of our pole's functions and designs, we hold multiple intellectual property rights both in Korea and overseas. In addition, our company and products have been recognized for their excellence through various certifications.

KEY FEATURES

A convenient, durable, and versatile pole — The POLVEN adjustable pole

Convenient Height Adjustment

- Easily adjust the pole height by sliding the outer pipe up or down, without pressing the button repeatedly

- Pitching 50 cm takes just 1 second, compared to 10 to 15 seconds with conventional poles

Strong Durability

- Made of octagonal pipes, where all eight sides support each other to provide strong durability
- Supports a maximum load of 260 kg

Multi-purpose Upper and Lower Caps

- Die-cast upper and lower caps enhance durability and minimize corrosion
- Central tabs on the caps enable easy attachment and removal of various parts, including pins, enhancing the pole's versatility
