The full original report was not provided for this selection. The underlying endpoint calculation, raw measurements and complete protocol have not been independently reviewed here.

FORMULA & FORMAT

The English brand catalogue identifies Peptide 5 Complex and phyto-collagen capsules, and lists niacinamide in the ampoule formula. The actual dropper-and-capsule photograph appears on page 1.

The December 2024 ampoule assessment is separate from the June 2026 cream report. The cream's hydration, water-loss and questionnaire results are not transferred to this ampoule.
